

Deepan K

UI/UX Designer | Product Designer

Chennai, India | 9092492002 | deepank0212@gmail.com | Portfolio: [deepan-ui/ux](#)

PROFESSIONAL SUMMARY

UI/UX Designer with 1+ year of experience designing SaaS platforms, dashboards, and web/mobile applications. Skilled in user research, information architecture, wireframing, prototyping, and usability testing. Proven ability to simplify complex workflows and deliver intuitive, user-centered design solutions that improve task efficiency and user satisfaction.

SKILLS

UX Design: User Research, User Flows, Information Architecture, Usability Testing, Heuristic Evaluation

UI Design: Wireframing, Prototyping, Interaction Design, Responsive Design, Design Systems

Tools: Figma, FigJam, Claude AI, Perplexity, ChatGPT

WORK EXPERIENCE

UI/UX Designer | IEDEO Tech Labs Pvt. Ltd., Chennai

Feb 2025 – Present

- Improved user flows for a multi-role SaaS platform by simplifying navigation and reducing task steps
- Designed wireframes and high-fidelity UI screens in Figma for web and mobile applications
- Conducted usability testing sessions and refined designs based on user and stakeholder feedback
- Built and maintained a reusable component library and consistent design system across products
- Collaborated with developers during design handoff to ensure accurate implementation
- Enhanced dashboard usability by restructuring content hierarchy and improving information clarity

PROJECTS

LMS Platform — SaaS Product

- Analyzed user needs and redesigned course navigation to improve learning workflow efficiency
- Created user flows and information architecture for student, instructor, and admin roles
- Designed wireframes and interactive prototypes to simplify task completion across all modules
- Conducted usability testing and iterated designs to improve navigation clarity and task success rate

Roster Management System

- Conducted user research with administrators to understand real-world scheduling pain points
- Mapped end-to-end workflows and designed a calendar-based interface for visual shift allocation
- Reduced scheduling complexity through intuitive task flows and automated conflict detection
- Validated design improvements through iterative feedback sessions with end users

E-Commerce Marketing Platform

- Analyzed campaign creation workflows and identified key usability bottlenecks
- Designed user flows to streamline campaign builder, template management, and contact segmentation
- Restructured dashboard layout to improve data visibility and reduce cognitive load
- Delivered high-fidelity Figma prototypes using a scalable SaaS design system

EDUCATION

Bachelor of Engineering – Computer Science and Engineering

2020 – 2024

Erode Sengunthar Engineering College | CGPA: 7.79
